

Welcome

The C.H. Cozean Library is here to provide you with information, services and materials. Our friendly, qualified staff will do its best to help you find information and to answer your questions.

Mineral Area College in-district residents age 18 or older may purchase a community borrower's card for \$10 (non-refundable). Out-of-district residents age 18 or older may also purchase a community borrower's card for \$15 (non-refundable).

Our collection supports the research needs of students at the community college level. We recommend that you browse the collection to see if it meets your needs. For example, we do not purchase all of the bestsellers or books on hobbies that one might expect to find in a public library.

Advanced research needs beyond the first two years of college may not be met.

The north side of the library is reserved for group study and quiet conversation. The south side of the library is reserved for quiet study.

as DVDs and music CDs. Use *CARDinals catalog*, the library's online catalog, to find books, DVDs and music CDs.

Search for Articles

The library subscribes to several magazines and scholarly journals. They are located in the periodical section and are in alphabetical order by title.

To find articles on a particular topic, use one of the library's online databases (i.e., EBSCOHost, JSTOR or SIRS Knowledge Source). These databases will:

- Provide access to full-text (complete) articles

(Continued on next page.)

(Continued)

from over 5,000 journal and magazine titles.

- Help you find articles in the library's paper magazine collection and identify other articles on your topic that are not in our Library's collection. (Fill out an interlibrary loan form to request articles from other libraries.)

The library subscribes to several newspapers; they are shelved near the periodical section.

Digital Videos

Films on Demand is a streaming video database of thousands of high-quality educational titles in dozens of subject areas from producers such as Films for the Humanities & Sciences, NOVA, BBC, ABC, CBS, MSNBC, The History Channel, Open University, TEDTalks and WideAngle.

Films can be shown in full length or clips.

E-books

This collection offers unlimited simultaneous user access to a large selection of multidisciplinary EBS-CO eBook titles covering a wide range of academic subject matter including Art, Business and Economics, Education, Health & Fitness, History, Language & Literature, Medical, Political Science, Religion, Social Sciences, and Technology. In addition you will find titles that cover popular topics such as Cooking, Crafts & Hobbies, Family, Recreation & Leisure, and Self-Help.
