(Major Code: MT-AP) CIP 51.1004

Student Name: _____ **ID#:** _____

The Missouri Health Professions Consortium (MHPC) MLT Program curriculum includes on-campus or virtual classroom instruction, on-campus laboratory instruction, and an off-campus clinical rotation component encompassing the areas of Hematology and Coagulation, Clinical Microbiology, Parasitology, Mycology and Virology, Immunohematology, Clinical Chemistry and Urinalysis, Immunology and Phlebotomy.

The classroom lecture component is taught by MACC and Three Rivers College faculty and is broadcast to the MLT students located at Mineral Area College, MACC, North Central Missouri College, Three Rivers College, and State Fair Community College campuses using interactive television (ITV) or online learning management system technology.

In addition, all MLT students will be required to travel to the MACC Mexico Campus or Three Rivers College Campus at designated times during the fall and spring semesters to participate in “centralized lab” sessions that bring the students from all campuses together for group lab activities and testing. Any required lodging will be at the student’s expense.

**It is strongly recommended that students successfully complete the Milestone courses as planned on the academic map to ensure completion of the degree

^Please refer to the course descriptions for pre / co-requisite and placement information. You can only register for these courses if you have met the prerequisite, placed into the course and / or enroll in the co-requisite course(s).

Additional Program Notes:

Off-campus clinical rotation components occur at designated clinical affiliates near the “home campus” area for each student. Students should be prepared to drive to their designated clinical locations each day assigned.

Students are NOT required to have a personally owned computer or home-based high-speed internet access as these materials and services are made readily available at all “home” campuses. However, it is strongly recommended that students have their own computer for use throughout the program.

General education classes may be completed at colleges other than the MHPC partner community colleges. Transfer credit is determined by each MHPC partner community college and students should not presume that all general education courses taken at another college will transfer as the equivalent to MHPC partner college coursework.

To successfully complete MLT Professional Coursework, students must achieve a minimum score of 78% or “C” in both the didactic and clinical components.

The MHPC MLT Program admissions process does not discriminate on the basis of race, creed, national origin, ancestry, gender, sexual orientation, age, veteran status, marital or parental status, or the presence of a non-job related condition or disability.

For additional information, please see the MLT Application located on the MACC website or contact Alese Thompson, MLT Program Coordinator, at aleset@macc.edu or 1-660-263-4100 ext. 13624.
